

CÓDIGO DIFÍCIL

PHPSevilla

```
function getPage($data)
```

```
function startProcess()
```

```
$tr->process('site.login');
```

```
function processResponseHeadersAndDefineOutput($response)
```

CÓDIGO DIFÍCIL

PHPSevilla

```
function getPage($data)
```

fetchPage(...) downloadPage(...)

```
function startProcess()
```

fork, create, begin...

```
$tr->process('site.login');
```

¿table row?

```
function processResponseHeadersAndDefineOutput($response)
```
